Projects

Ecommerce Mern stack

🌐 <https://ecommercemernstack.netlify.app>

Created a personal MERN E-commerce app with a user-friendly interface, intelligent search, advanced filters, and seamless shopping cart. The secure checkout supports multiple payment options. The admin portal allows easy product and category management, offering insights into user activity for a personalized experience. Developed using React.js for the UI, Node.js, and Express.js for robust server-side operations, and a scalable MongoDB database.

React js, Express js, Mongoddb, Responsive

Talk to Someone

🌐 <https://chatapp-qfk3.onrender.com/>

This is a Full Stack Chatting App. Uses [Socket.io](#) for real-time communication and stores user details in encrypted format in Mongo DB Database.

React Js, REST API, Bootstrap

Sorting Visualizer

🌐 <https://sortingvisulizer.netlify.app/>

A JavaScript web application for visualizing various sorting algorithms. It was built for use by developers and educators alike.

JavaScript, Sorting Algorithms
