INTERNSHIP

Front End Developer Intern

Shoppeal Tech Private Limited   📍 Remote   **Duration**:2 month

Build an administrator portal for efficient student record management and certificate generation. Administrators can login, sign up, and perform essential tasks like adding, deleting, viewing, and updating student data, as well as generating student certificates. This system simplifies administrative processes and enhances student management.   GtiHub

EDUCATION

B. Tech (Information Technology)

Rajkiya Engineering College Banda

📅 July 2019-June 2023   📍 Banda, Uttar Pradesh   **CGPA:**7.83

Related Coursework: Principles of Data Structures through C/C++, Design & Analysis of Algorithms, Principles of Operating Systems, Database Management Systems

TRAINING

• I have undergone comprehensive online training on **Bootstrap**, **HTML** and **JavaScript**, which provided in-depth knowledge on technologies. Visit

• I have also undergone training on Data structure and algorithms using **C** and **C++** through Udemy courses. Visit

PROJECTS

1) Admin Student Record Portal

•This project entails creating an administrator portal for efficient student record management and certificate generation. Administrators can login, sign up, and perform essential tasks like adding, deleting, viewing, and updating student data, as well as generating student certificates. This system simplifies administrative processes and enhances student management.

• The technology used: HTML, JavaScript, Node.js, MongoDB, Express.js, React.js, JWT web token GitHub

2) CHATAPP

• This is a Full Stack Chatting App. Uses Socket.io for real-time communication and stores user details in encrypted format in Mongo DB Database.

• The technology used: HTML, CSS, JavaScript, Node.js, MongoDB, Express.js, React.js GitHub |Visit

3) SORTING VISUALIZER

• A JavaScript web application for visualizing various sorting algorithms. It was built for use by developers and educators alike.

• The technology used: HTML, CSS, JavaScript, Sorting Algorithms   GitHub | Visit

4) News INDIA

• This React app utilizes the News API to gather and present real-time news content. Offering an immersive news-reading experience, it provides users with up-to-date information and headlines from various sources, making it a convenient and informative news application.   GitHub

TECHNICAL SKILLS

• Programming Languages: C++, C, Python (basic)

• Framework: React.js, Express.js

• Frontend Web Development: HTML, CSS, Bootstrap, JavaScript

• Backend Web Development: Nodejs, MongoDB, EJS, REST API.

• Others: Git, OOP, DBMS
